Hey! What's going on? I mean I called W8VFM one time and he came back
and gave the 2 watter a 579. I gave his 5 watter a 589. First call. What's going
on? Should I fix this thing and get the other 3db out of it or will that be too
much for the band? What's going on?Guess I better
order
some more 6T9s.....and another thousand QSLs. I better make sure
I got enough envelopes at the DX QSL bureau too. 73 de KS0F

Hello glowbugs@theporch.com!

Could you suggest any title of tubes databooks?
I'm especially interested to modern European and American tube types (such as:
KT, EL, EF, 6xxxx series).
